INTRODUCTION 01

ABOUT US

Preparing for your success, we provide truly IT solutions.
Unix Plus is a company specialized in providing
marketing services in all its fields and web design and development services by creating a new breakthrough in designs through an integrated team of professionals and experts. And we seek to be at the top of the pyramid among the largest other competing companies

CORE OF VALUE

BABY BLUE concept can be employed for various purposes, from branding to design. Think of soft and serene shades of blue reminiscent of a clear sky. This color conveys a sense of calmness, innocence, and tranquility. It can be ideal for baby products, wellness brands, or any concept where a gentle and nurturing image is desired. Combine it with neutral tones or pastels for a soothing overall aesthetic.

SOFT & CALM

TRUST

BLUE COLOR In advertising, leveraging blue can evoke a sense of trust, reliability, and calmness. Incorporate a vibrant or gradient blue to grab attention, while maintaining a clean and professional aesthetic. Use blue strategically in your visuals and branding to convey a message of stability and competence to your target audience.

FRIENDLY

BABY ORANGE concept can infuse warmth, playfulness, and a friendly vibe. Utilize soft, pastel shades of orange to evoke a sense of approachability and joy. This color scheme can be effective for promoting products or services related to family, childcare, or anything that benefits from a cheerful and inviting tone. Combine baby orange with complementary colors to create visually engaging and harmonious advertisements.

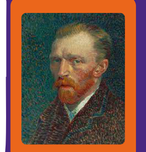
ORANGE COLOR in marketing can evoke energy, enthusiasm, and creativity. Consider a bold and vibrant orange for attention-grabbing elements, combined with complementary neutral tones for balance. This color can convey a sense of innovation and friendliness, making it effective for brands looking to stand out and engage with their audience in a dynamic way.

ENERGY

OUR JOURNEY

03

Vincent van Gogh



I OFTEN THINK THAT THE NIGHT IS MORE ALIVE AND MORE RICHLY COLORED THAN THE DAY

"Embark on a journey with UNIX PLUDS, where darkness is but a precursor to the brilliance that awaits. In the realm of advertising and promotion, our voyage is guided by the unwavering belief that amidst the shadows of obscurity, there lies the potential for radiant transformation. Together, we navigate the labyrinthine paths of the marketing landscape, illuminating the way for our clients, as they traverse from the depths of anonymity towards the radiant beacon of recognition. With each strategic step, we dissipate the gloom of insignificance, infusing their brands with the luminance of distinction. Our mission is to shepherd them through the trials of obscurity, empowering them to emerge victorious, bathed in the light of prominence, where their message resonates with clarity and purpose. So let us embark together, as partners in this odyssey, guiding them from the shadows of anonymity to the radiant dawn of success."

OUR SERVICES

04

1- WEBSITE :

User interface design:
designing pages in an attractive and user-friendly manner.

Software development:
Includes programming and developing the necessary codes and scripts to run the website's functions correctly and efficiently.

Databases:
Designing and developing databases to store and manage the various information that websites deal with.

Website hosting:
Providing hosting services to ensure the website is available online 24/7.

Search Engine Optimization (SEO):
Incorporating elements of search engine optimization to increase the website's visibility in search engine results.

Data analysis:
Including tools for analyzing the website's performance and understanding user behavior to improve the user experience and overall website performance.

2- BRANDING :

Logo Design:

Crafting distinctive and memorable logos that embody your brand identity.

Brand Strategy:

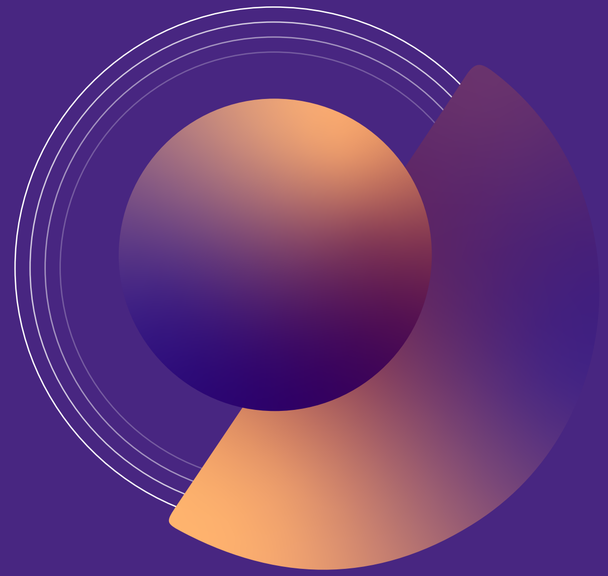
Formulating comprehensive strategies to define and position your brand in the market.

Visual Identity:

Designing cohesive visual elements to ensure a consistent and impactful brand presence.

Brand Consultation:

Providing expert guidance on brand development and positioning.



3- MARKETING & ADVERTISING :

Market Research :
Understanding consumer needs, preferences, and behaviors through market research to develop effective marketing strategies.

Brand Management :
Building and maintaining a strong brand image through consistent messaging, visual identity, and customer experiences.

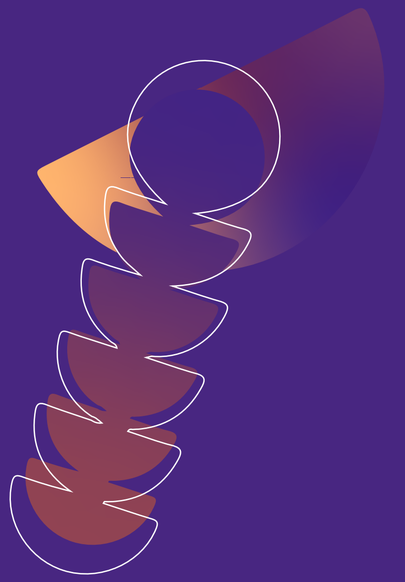
Creative Strategy::
Developing creative concepts and messaging to capture the attention of the target audience & communicate the benefits of the product or service.

Media Planning :

Selecting the most appropriate media channels (e.g., TV, radio, print, digital) based on the target audience, budget, and campaign objectives.

Ad Placement :
Negotiating and purchasing advertising space or time slots in selected media outlets to maximize reach and effectiveness.

Adjustment and Optimization :
Analyzing campaign data and making adjustments to optimize performance and achieve desired outcomes.



WHY UNIX PLUS

05

WHY UNIX PLUS !

"**UNIX PLUS** help you smoothly and confidently transition from your current stage to the next, which will be much better. With us, you will shine brighter and clearer, as we provide comprehensive support and innovative strategies that enable you to efficiently and effectively achieve your goals. By choosing us, you will receive the support that inspires you and gives you the ability to continuously grow and evolve."

@unixpluseg

OUR SUCCESS

"Invite yourself to witness success firsthand by exploring our portfolio. Let your eyes behold the elegance of our work and experience the undeniable triumph achieved through our endeavors."
